Education

2022 - 2025

SMK WIKRAMA BOGOR
Software and Game Development

- Studying software and game development with a strong focus on frontend technologies, UI/UX design, and full-stack web development. Gained hands-on experience in building interactive web applications, working with modern frameworks, and developing responsive user interfaces.

Work Experience

Aug 2024 - Nov 2024
Bogor, Indonesia

PT Narantraya Teknologi Digital
Frontend Developer | UI UX Designer

- Contributed to the development of BarenganAja, a Next.js-based web application designed in Figma and built with Tailwind CSS for a modern, responsive interface. Responsible for UI optimization, real-time data integration, API connections, and cross-browser compatibility. Worked in an Agile environment using Git for version control and participated in code reviews to improve code quality.

Jan 2024 - Jun 2024
Bogor, Indonesia

PT Narantraya Teknologi Digital
Frontend Developer | UI UX Designer

- Participated in the development of the CIU Insurance website, a digital insurance platform for claims and policy information. Built using Next.js, Figma, and Tailwind CSS to ensure an intuitive user experience. Responsible for developing a responsive UI, custom CMS, performance optimization, and API integration to ensure seamless claim and policy management.
